SHARKEY IS CAREFUL IN HIS INVESTMENT.

Somewhere in the long ago we read one of the many stories that had to do with the miserliness of Tom Sharkey, the "warhorse" of the ring in the earlier days of pugilism, but here is a top-liner:

Sharkey and a friend were walking along Fourteenth street, in New York, one night when a human derelict blocked their path.

"Say, bo," he said to Sharkey. "I'm down and out. Will you give me 10 cents for a bed?"

"Let's see the bed," asked the cautious Sharkey.

THERE'S A REASON FOR THESE STUNTS

"Why is it," asks a pugilistic fan, "that Sam Langford knocks out some men in one or two rounds and lets others stay the limit, although the others look like dubs?"

The answer is simple. At the beginning of each bout Sam counts the house. If it's a slim house Sam knows there's no chance for a return match, whereupon he finishes the other guy as quickly as possible. If it's a big house Sam lets the other guy stay the limit so that a return match will be a good drawing card.

WEILMAN IS DETROIT'S JINX.

Cobb, Crawford and Veach Have Slim Average Against Him.

The management of the Detroit Tigers would gladly hand Carl E. Wellman of the St. Louis Browns a bonus with a pension for life if he would quit pitching baseball as a means of livelihood. This tall athlete has had wonderful success against the Detroit batsmen. This is the fourth season in the American league for Wellman, and he has worked in twenty-one games against the Jennings team, losing only four games. Thus the percentage of wins credited to Wellman for his entire labors against the Tigers would stand .777.

The lengthy Hamilton (O.) boy has held the combination of Cobb, Crawford and Veach as an open book. For instance, these three in fifty-five tries at the bat have succeeded in making seven base hits, giving them an average for the season of 1915 against Wellman of .127.

Bobby Veach has had the best success against the curves and benders that Wellman hands down from his remarkable height of six feet six inches. Veach in eighteen tries at bat made four hits, an average of .222. Cobb faced long Carl's slants sixteen times this season and garnered two base hits, giving the world's greatest batsman a batting average of .125. Then comes Sam Crawford. In twenty-one times Crawford has faced Wellman he managed to get one base hit, giving him the inglorious average of .048.

AMERICAN JOCKEY IS LEADER.

Heads List of Winners in Big Berlin Meeting.

The American jockey Archibald headed the list of winning riders in the summer meeting at Hoppengarten, Berlin, recently concluded, with seventeen firsts in forty-eight races. The victories of the American rider were very popular, and in racing at least there was no trace of anti-American feeling. Second place was taken by Jockey Rastenberg, riding for the Weinberg stables, for which Fred Tarnal, the old American jockey, is training.

Rastenberg, who is serving with the German field artillery and was given a furlough for the meeting, rode fifteen winners in fifty-six races. Other German jockeys follow far to the rear, the next rider, Plueschke, riding only seven winners.

BASEBALL AT NIGHT.

Wards May Introduce Such Play For Brookfeds.

Baseball at night for the fans of Brooklyn may become a reality within the next few weeks. Robert B. Ward, vice president of the Federal league and owner of the Brookfeds, and his brother, George S. Ward, are now contemplating establishing night baseball at Washington park, the home of the Brookfeds, in the near future.

Both R. B. Ward and his brother refused to discuss the matter recently, but from a person not connected with the club it was learned that the Wards have been considering for some time the idea of introducing night baseball to the fans in Brooklyn.

BUNTS BANE OF TESREAU.

A Steady Pitcher Until Infield Taps Get Working, and Then—

Tesreau is one of the steadiest and best pitchers in baseball—until the enemy begins to bunt, and then Tesreau makes a balloon ascension.

"Play the bunting game and you can beat Jeff Tesreau three times out of five."

That's the tip that has been passed out among the rivals of the Giants and has been used with disastrous results to the pitcher.

SCIENTISTS WANT LABORATORY FOR ADVISORY BOARD

Washington, Oct. 8.—Under a plan approved by the civilian navy advisory board, congress will probably be asked this winter to appropriate about \$8,000,000 for construction of a gigantic laboratory wherein these experts can experiment on devices to make the American navy the best in the world.

Their plans call for a gigantic institution, thoroughly equipped, in which would be everything needed for carrying out their ambitious schemes.

Secretary Daniels will make a recommendation for the laboratory, though how much he will ask is not yet determined.

Washington, Oct. 8.—Secretary of War Garrison today submitted the army plan for national defense, a plan which proved surprisingly inexpensive. The recommendations are understood to include:

An increase of the standing army by 20,000 men; reorganization of the militia; creation of a reserve; an increase of field artillery; creation of a reserve ammunition supply; extension of the citizen soldier camp plan. Appropriations will not be materially increased.

SECRET SERVICE OFFICERS GUARD AFFIANCED PAIR

(By United Press Leased Wire.)
New York, Oct. 8.—Hordes of patrolmen, secret service officers and motorcycle policemen will guard President Wilson and his affianced bride during their visit here to prevent annoyance from misguided "friends." A drizzle threatened to attend their shopping tour in search of a betrothal ring.

Whether the president and the future "First Lady of the Land" will brave the curiosity of Fifth avenue throngs in their shopping plans is unknown, but it was believed the president would have a collection of diamonds sent to Colonel House's apartments, where he will be a house party guest.
